

The `latex-lab-text` package

Changes and additions to the kernel related to the tagging of various small text commands

L^AT_EX Project*
v0.85b 2024-09-18

Abstract

1 Introduction

The followings contains small changes to improve the tagging of (inline) text commands.

While the tagging of the L^AT_EX logo is quite straightforward, tagging of `\emph` as **EM** and `\textbf` as **Strong** can have unwanted side-effect as both tags are inline tags and so not every inner structure is allowed. Probably both commands will need an optional argument or a starred variant which suppress the tagging.

2 Implementation

```
1 <*package>
2 <@@=tag>
3 \ProvidesExplPackage {latex-lab-testphase-text} {\ltlabtextdate} {\ltlabtextversion}
4 {Code related to the tagging of various small text commands}
```

2.1 The L^AT_EX and T_EX logo

This uses the generic hooks, so that it catches also other definitions. For `\LaTeX` we stop tagging to avoid that the inner `\TeX` leads to a double tagging.

```
5 \AddToHook{cmd/LaTeX/before}
6 {
7   \mode_leave_vertical:
8   \tag_mc_end_push:
9   \tag_struct_begin:n{tag=Span,actualtext=LaTeX}
10  \tag_mc_begin:n{}
11  \tag_suspend:n{LaTeX}
12 }
13 \AddToHook{cmd/LaTeX/after}
14 {
15   \tag_resume:n{LaTeX}
```

*Initial implementation done by Ulrike Fischer

```

16   \tag_mc_end:
17   \tag_struct_end:
18   \tag_mc_begin_pop:n{}
19   }
20 \AddToHook{cmd/TeX/before}
21 {
22   \mode_leave_vertical:
23   \tag_mc_end_push:
24   \tag_struct_begin:n{tag=Span,actualtext=TeX}
25   \tag_mc_begin:n{}
26   }
27 \AddToHook{cmd/TeX/after}
28 {
29   \tag_mc_end:
30   \tag_struct_end:
31   \tag_mc_begin_pop:n{}
32   }

```

2.2 Emphasizing

We tag `\emph` but leave commands like `\textbf` alone, as it is not clear if they always have a semantic meaning.

```

33 \AddToHook{cmd/emph/before}
34 {
35   \mode_leave_vertical:
36   \tag_mc_end_push:
37   \tag_struct_begin:n{tag=Em}
38   \tag_mc_begin:n{}
39   }
40
41 \AddToHook{cmd/emph/after}
42 {
43   \tag_mc_end:
44   \tag_struct_end:
45   \tag_mc_begin_pop:n{}
46   }
47 </package>
48 <*latex-lab>
49 \ProvidesFile{text-latex-lab-testphase.ltx}
50   [\ltxlabtextdate\space v\ltxlabtextversion\space
51     code related to the tagging of various small text commands]
52
53 \RequirePackage{latex-lab-testphase-text}
54
55 </latex-lab>

```
