Worked All Swiss Lakes (WASL)

The award was created to promote portable amateur operations and publicize the many and beautiful lakes of Switzerland. Contacts must be made on or after a starting date of 1 January 2005. The basic award is issued for contacting (or operating from) a minimum of 10 Swiss lakes. The award is only issued for all bands and all modes. The award is free of charge and is provided to you via an e-mail attachment which you may print in your shack.

A complete list of Swiss lakes, their reference numbers, and pertinent physical facts plus a map of Switzerland showing their location within the country is available on their website. (The sponsor has done a first class job in researching and presenting this information.)

A separate set of regulations is provided for those individuals who intend to activate Swiss lakes for the award called "Activity Portable Lakes", (APL).

The application should consist of your e-mail to the sponsor providing complete QSO data plus the proper lake reference from the web site and should be sent to the e-mail address of the sponsor shown below.
